IMPORTANT INFORMATION BELOW

This vote is critical to your future.

This is not only about representation. It is about your job, your security, and your retirement.

Our members are reaching out and telling us they are scared for their future. Worried about their jobs being outsourced, worried about AMFA's ability to service, worried about losing critical years in their retirement savings planning without a real plan – just promises.

And their concerns go deeper.

Not one AMFA staff member has shown up.

Not at meetings.

Not even in the parking lot.

If they can't show up now, when it matters most, when will they?

Our members are worried that their voices will not be heard as they are now the minority in a larger group.
